

***Partnership on test
system logging, monitoring
and development***

***Preventive and planned
maintenance schemes***

***As test equipment has become more and more
sophisticated, maintenance and repair have become
increasingly difficult, complex and time consuming.***

Ensuring the continual availability of your
test installations has become a critical
issue.

Faced with this situation, D2T has drawn
on its twenty years of experience and
expertise in the field to offer a speedy and
efficient maintenance service, optimized
to match your requirements in terms of
equipment availability, response time and
quality of service.

All D2T products are warranted against defects in materials and workmanship for one year from date of delivery to the original purchaser. Specifications are subject to change without notice.

D2T - Integrated solutions

MAINTENANCE & REFURBISHMENT

- All makes of equipment
- On-site inspection
- Project management

ASSISTANCE
